Topic/Objective:	Class:	Name:
Evolution CH 8 Sec. 1 Change Over Time	7th Gr. Sci	
	Period:	Date:

Essential Question:	S	Q	RR	RR	RR	RR	RR	RR	RR
What changes over time provide evidence of evolution?									

Questions:	Notes:
	Differences Among Organisms
	adaptation - a heredity characteristic that helps an organism survive and reproduce in its environment
	evolution - the process by which populations accumulate (gather) inherited changes over time
	- scientist think all living things share a common ancestor
	- evidence comes from fossils and comparing diff. groups of organisms
	Evidence of Evolution: The Fossil Record
	Reading the Fossil Record
	Fossil Record - supplies evidence about the order evolutionary changes have occurred.

Summary:
